

# Back to School Apps

Here are some recommended apps to help you with your homework; best of all they are all free:

## [My Homework](#)

This app helps you to keep track of your upcoming assignments and due dates. You can set it up to send you reminders, and there is also a desktop version that will sync with your phone or tablet.

## [Merriam-Webster Dictionary HD](#)

If you need to look up a word, this app will let you search by typing or saying the word. You can also see the word used in a sentence, and you can get similar words (synonyms) that will help you score some extra vocabulary points on your papers.

## **Graphing Calculator**

You may be needing a graphing calculator in your algebra and pre-calculus classes. Check out [Free Graphing Calculator](#) for Apple devices, and [Algeo Graphing Calculator](#) for Android devices.

### **[gFlash+](#)**

**This app lets you create and share flash cards. You can create your flashcards in the app itself, with Google Spreadsheets, or in a website like quizlet.com, then have them handy on your phone or tablet to study.**

### **[Khan Academy](#)**

**If you are having a tough time in a particular subject, Khan Academy has thousands of awesome videos on any subject you need help with.**

### **[MacDonald Public Library's BookMyne App](#)**

**As soon as you get an assignment, you can download ebooks and audiobooks and place holds from MacDonald Public Library's mobile app.**
